

# HELLO!

*My name is Adam Butler. I'm a bit of a creative jack-of-all-trades. I'm a web designer, print designer, photographer, & musician living in Scottsdale, AZ.*

## Things I Enjoy

Dunkin Donuts coffee, my MINI Cooper, live music, sushi, Chipotle, first-person shooters, microbrews, independent films, Canon cameras, ampersands, TED Talks, designing résumés... (\*wink\*)

# WHAT I THINK

I believe that great design makes a lasting impression. Too often, companies settle for mediocre design and generic marketing strategies. Clichés rarely make for impactful marketing or design, and I make it a point to avoid them when I can. I want to be a part of a creative team that cultivates fresh creative thinking to solve problems and make an impact. I want to stand out from the rest and do something new. I believe that creativity at its finest has the potential to change the world. I want to create evocative work that makes a real impact.

# WHAT I KNOW

## Interactive Design

Websites, user-interfaces, eMarketing. Typography, layout, color, information-hierarchy, verbal & visual communication, XHTML/CSS, Flash, jQuery (limited).

## Print Design

Marketing collateral, editorial, advertising.

## Photography

Portraiture, landscape, food/product.

## Music + Audio

I play mainly guitar and piano. I write, record and produce all of my own original songs.

# EDUCATION

I graduated from the University of Denver in June of 2009, with a double-major B.A. in Electronic Media Arts/Design & Digital Media Studies. I finished school with an overall G.P.A. of 3.72. While my education at the University of Denver certainly helped me grow as an artist and a designer, a great deal of what I know is self-taught and learned through experience.

My design education is ongoing. I read blogs and case studies about design in my spare time to ensure that I'm always up to date on the latest trends and best practices within the industry.
